			4.0 mm sheet	3.5 mm sheet	3.0 mm sheet
96" x 125"	25M03	15,000 lbs / 6,804 kg	223 lbs / 101 kg	205 lbs / 93 kg	187 lbs / 85 kg
88" x 125"	25A04	15,000 lbs / 6,804 kg	205 lbs / 93 kg	190 lbs / 86 kg	174 lbs / 79 kg
88" x 108"	25B05	13,000 lbs / 5,897 kg	176 lbs / 80 kg	166 lbs / 76 kg	152 lbs / 69 kg
53" x 88"	25E06	2,500 lbs / 1,134 kg	95 lbs / 43 kg	90 lbs / 41 kg	84 lbs / 38 kg
60.4" x 61.5"	25K07	3,500 lbs / 1,588 kg	81 lbs / 37 kg	75 lbs / 34 kg	68 lbs / 31 kg
60.4" x 125"	25L10	7,000 lbs / 3,175 kg	192 lbs / 87 kg		

CERTIFICATIONS:

PalNet air cargo pallets are certified according to NAS 3610, Rev. 10 / JTSO-C90c / TSO C90c and are approved by EASA and FAA. PalNet GmbH Air Cargo Products is an Approved Manufacturing Organisation, LBA DE.21G.0151, and holder of Alternate Procedures to Design Organisation Approval (AP to DOA) No. AP152.

DESCRIPTION:

The PalNet air cargo pallets are consisting of a high resistant aluminium plate (alloy 7075-T6 or 7021-T6) and four edge rails (alloy 7020-T6) with a continuous seat track according to MS 33601 A. The four edge rails are forming a frame around the plate. The plate and the edge rails are connected by high tensile aluminium forged corners and stainless steel rivets around the perimeter of the edge rail frame. Due to the non-welded construction damaged edge rails are easy to replace. IATA markings on both long sides are standard. ODLN sticker is also standard.

OPTIONS:

Edge rails and corners can be anodized according to customer's request. Nets can be permanently attached. Airline logo can be painted in the middle of the sheet. Bar codes can be fixed either in the seat track or on the edge rail.

CMM can be ordered through our website www.palnet-acp.com/cmms.html
